Knock Out Suit

(KNOCKOUTSUIT) **From: \$109.99****To: \$259.98****Price as configured:
\$0.00**

The Knock Out Jacket and Pant are the perfect pair for pre-season scouting and early fall hunts that sweat you up in a hurry. Lightweight with breathable XLT fabric, the Knock Out offers industry shattering Trinity scent control technology combined with 4Direction stretch. Ideally suited for those that hit the field or stand in the early season heat.

- 100% Polyester XLT fabric
- Full zip jacket with collar
- Raglan sleeves for ease of movement
- Innovative safety harness slit in back for easy attachment and concealment
- One angled chest pocket
- Two lower snap pockets
- Partial elastic cuffs and waist
- New updated styling
- System Layer 3
- NOTE: If close to the upper end of a size (see size chart tab below) consider ordering a size up especially if planning on layering.

Trinity™ Scent Control Technology For over 10 years Robinson Outdoor products has worked to develop Trinity™ Technology, the new pinnacle in human scent control. Trinity Technology is designed around a cutting edge synthetic polymer that was specifically created to adsorb human odor. With a huge surface area and more adsorptive kinetics, Trinity Technology will surpass the old industry standard of scent control and set the bar at a whole new level. With clothing, liquids, detergent and spray; Trinity will have a product available for everyone's budget and needs. Simply put- this technology is amazing and available nowhere else.

4 Direction Stretch™ Provides superior comfort, fit and freedom of movement. The inherent multi-directional stretch of the fabric allows you to perform the movements needed to hunt while not worrying about your garment binding or restricting you.

BodyLock® Technology Strategically prevents easy escape of odor, and forces it through the scent adsorbing filter at key exit points of your body - wrist, neck, waist, leg cuffs - to allow maximum adsorption by the ScentBlocker scent control technology.

Xtreme Lightweight Technology Utilizes soft, quiet outer fabric and embossed inner lining to create a very lightweight garment with excellent stretch properties. This lightweight fabric construction also provides excellent breathability.
